Past Performance

- **IT Modernization** – Delivered enterprise IT modernization services for GSA Assist, streamlining outdated systems into modern, secure, cloud-ready platforms.
- **Digital Transformation** – Modernized and migrated NINDS and NIEHS legacy websites to modern Drupal/Acquia platforms, improving user experience, accessibility, and content management.
- **Cloud Enablement** – Migrated 30+ applications to AWS and Azure environments for NIAID, DOL WHD, and ACF, enabling scalable, FedRAMP-compliant cloud operations. Also migrated RPA bots to Azure cloud at FEMA and deployed legacy apps to Azure at NIAID and NIH CIT. Did Oracle Cloud assessment for NIH NBS.
- **Cybersecurity** – Strengthened security postures at BEP, NIAID, and NIDDK by implementing zero-trust models, continuous vulnerability management, and compliance with FISMA/NIST standards.
- **Low Code / No Code** – Delivered ServiceNow and Palantir-based low-code solutions at FMC, NIAID, and NCI to rapidly automate workflows and data integration.
- **End User Support & UCC** – Provided comprehensive end-user support and Unified Communications and Collaboration (UCC) services to NINDS, SREE Hotels, and NIAID, ensuring high availability, seamless conferencing, and responsive service desk operations.
- **Data Analytics** – Developed advanced analytics and AI/ML-driven trend detection dashboards for NIAID TB Portal, enabling data-driven research insights.
- **RPA & AI/ML** – Designed and deployed enterprise automation and cognitive solutions for USSS TOPS, DHS TRIO, and FEMA RPA, including Azure-hosted AI/ML models.
- **ERP** – Supported large-scale ERP implementations and migrations, including DHS TRIO (Oracle), USSS TOPS (Oracle), FEMA FSM (SAP), and NIH NBS (Oracle).
- **Program Management / PMO**: We provide structured PMO services—covering program governance, risk management, schedule control, and automated reporting dashboards (PMStatusBot)—for NIH, DHS, and FEMA programs.
